This fund will be at least 95% invested in equities at all times. Element Investment Managers signed the United Nations Principles for Responsible Investment (PRI) in May 2006. ## STATUTORY INFORMATION

Figures quoted are from Element Investment Managers (Pty) Limited, for the period ended March 2013, for a lump sum investment, using NAV-NAV with income distributions reinvested. Collective Investment Schemes in Securities (CIS) are generally medium- to long-term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS prices are calculated on a Net Asset Value (NAV) basis, which is the total value of all assets in the portfolio, including any income accrual and less all permissible deductions from the portfolio. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Different classes of participatory interests apply to this portfolio and are subject to different fees and charges. A schedule of fees, charges and maximum commissions is available on request from Element Unit Trusts Limited. Commission and incentives may be paid and if so, would be included in the overall costs. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. This portfolio is valued daily at 15h00 and forward pricing is used. The portfolio may be closed. Element Unit Trusts Limited is a full member of the Association for Savings & Investment SA (ASISA).
