

ELEMENT FLEXIBLE FUND

30 April 2012

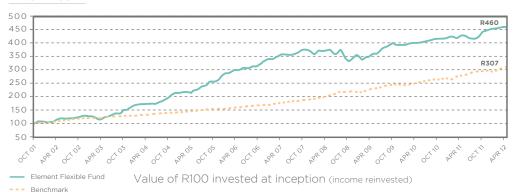

FUND OBJECTIVE:

The Element Flexible Fund aims to achieve a steady growth of capital and income for investors. The fund is actively managed and has been designed to operate as flexibly as possible within the constraints of the South African legislation. The Element Flexible Fund is Element Investment Managers' "best view" on asset allocation, combined with individual instrument selection based on bottom-up research conducted by our in-house research team. Element Investment Managers signed the United Nations Principles for Responsible Investment (PRI) in May 2006. In signing the PRI, we have committed to adopt and implement them where consistent with our fiduciary responsibilities. We believe that this improves our ability to meet commitments to investors as well as better align our investment activities with the broader interests of society. Element Investment Managers is the first South African investment manager to sign the PRI.

SUITABLE FOR INVESTORS WHO:

- Make a moderate risk profile with a medium- to long-term investment time horizon
- ≥ Need capital growth at low risk of capital loss
- ≥ Seek inflation-beating returns with limited downside risk
