

ELEMENT GLOBAL EQUITY FUND

30 April 2014

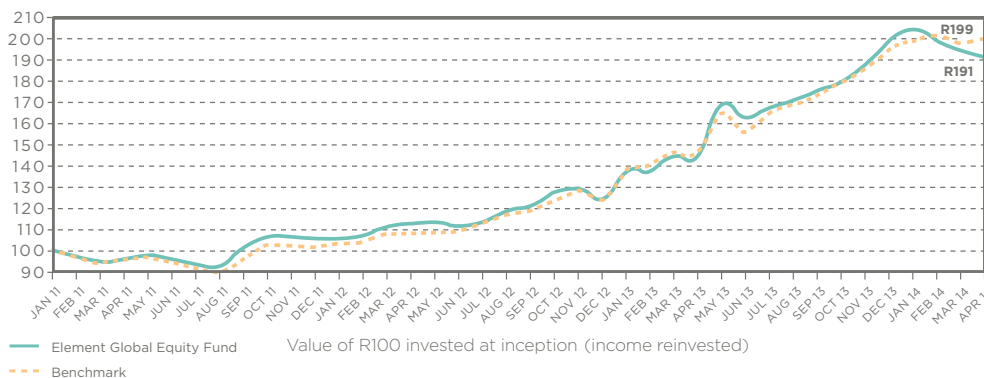

FUND OBJECTIVE

The Element Global Equity Fund is a rand denominated global general equity fund that invests in a concentrated portfolio of highest conviction global equity securities. The fund will focus on achieving long-term capital appreciation without concentrating on income requirements. The fund aims to achieve this growth for investors by investing in a spread of equity securities across the globe, listed on exchanges that are full members of the World Federation of Exchanges, thereby creating an internationally diversified portfolio for investors. Epoch Investment Partners, a global equity manager, will assist the equity selection process. Epoch is an investment firm with a suitable alignment of investment philosophies, processes and ethos to our firm.

SUITABLE FOR INVESTORS WHO:

- Have an appetite for global equity exposure without having to purchase foreign currency
- Seek exposure to global equities to provide long-term capital growth

March 14	0.00	0.00	0.00	0.00

The Element Global Equity Fund declares a distribution half yearly.

STATUTORY INFORMATION

Figures quoted are from Element Investment Managers (Pty) Limited, for the period ended April 2014, for a lump sum investment, using NAV-NAV with income distributions reinvested. Collective Investment Schemes in Securities (CIS) are generally medium- to long-term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS prices are calculated on a Net Asset Value (NAV) basis, which is the total value of all assets in the portfolio, including any income accrual and less all permissible deductions from the portfolio. CIS are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees, charges and maximum commissions is available on request from Element Unit Trusts Limited. Commission and incentives may be paid and if so, would be included in the overall costs. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. This portfolio is valued daily at 15h00 and forward pricing is used. The Fund may be closed to new investments at any time in order to be managed in accordance with its mandate. Element Unit Trusts Limited is a full member of the Association for Savings & Investment SA (ASISA).

*The Element Global Equity Fund Class B has a Total Expense Ratio (TER) of 2.23% pa. This means 2.23% of the average Net Asset Value of the portfolio was incurred as charges, levies and fees. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs.
