The Fraters Earth Equity Fund is an actively managed, domestic general equity fund that aims to provide investors with the opportunity to achieve long-term capital appreciation growth with a moderate level of income. The fund uses its presence to promote awareness of corporate responsibility performance measurements, including environmental management, social responsibility, economic empowerment and corporate governance. This is achieved through constructive engagement with management of the companies in which the fund is invested.

Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS prices are calculated on a net asset value basis which is the total value of all assets in the portfolio including any income accrual and less all permissible deductions from the portfolio. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Different classes of participatory interests apply to these portfolios and are subject to different fees and charges. A schedule of fees and charges and maximum commissions is available on request from the company/scheme. Commission and incentives may be paid and if so, would be included in the overall costs. Forward pricing is used. The funds are valued daily at 15h00. The portfolios may be closed. Frater Unit Trust Management Company Limited is a member of the Association of Collective Investments (ACI).
