FRATER

UNIT TRUSTS

The Fraters Flexible Fund aims to achieve a steady growth of capital and income for investors. The fund is actively managed and has been designed to operate as flexibly as possible within the constraints of the South African market. The Fraters Flexible Fund is Fraters' "best view" on domestic asset allocation, combined with individual instrument selection based on bottom-up research conducted by our in-house research team. Fraters signed the United Nations Principles for Responsible Investment (PRI) in May 2006. In signing the PRI, we have committed to adopt and implement them where consistent with our fiduciary responsibilities. We believe that this improves our ability to meet commitments to investors as well as better align our investment activities with the broader interests of society. Fraters is the first South African investment manager to sign the PRI.

Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS prices are calculated on a net asset value basis which is the total value of all assets in the portfolio including any income accrual and less all permissible deductions from the portfolio. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Different classes of participatory interests apply to these portfolios and are subject to different fees and charges. A schedule of fees and charges and maximum commissions is available on request from the company/scheme. Commission and incentives may be paid and if so, would be included in the overall costs. Forward pricing is used. The funds are valued daily at 15h00. The portfolios may be closed. Frater Unit Trust Management Company Limited is a member of the Association for Savings & Investment SA (ASISA).
